# CS Education Podcasts

## Code VA

https://www.codevirginia.org/outreach/podcast/
In September 2018 CodeVA launched a new Computer Science Podcast for educators. Each episode focuses on one aspect of computer science through expert interviews and teaching strategies. Season one starts with binary, then moves through the foundations of computer science, including hardware, algorithms, the tools of programming, the internet and cryptography.

## The K-12 Engineering Education Podcast

https://www.stitcher.com/podcast/the-k12-engineering-education-podcast
